POWERPOINT PRESENTATION #3
Entertainment Industry

**Task**: You will create a slide show on a celebrity, author, or anyone else in the entertainment industry. Your job will be to prepare a slide show that tells us about this person. Your slide show should contain the following information *(remember to cite your sources)*:

1. Biography – story of the person’s life
   a. Family, education, etc.
2. Organizations/charities that he/she is involved in
3. Accomplishments/Awards he/she has received
4. Why you chose this person

**Formatting**: The following things will also need to be incorporated into your slide show and will be graded.

1. Title slide
2. Bulleted lists – do not put sentences and/or paragraphs into the slide show and just read them off. Use PowerPoint as an “outline” for your presentation.
3. Slide transitions
4. **Appropriate** clip art/pictures
5. Custom animation
6. **Appropriate** backgrounds
7. Sources where you got your information – you need to remember to cite your sources (even pictures) otherwise you may be breaking copyright laws.

**Grading**: This is an individual project and you will receive “participation” grades every day you are assigned to work on this project. If you work on it every day in class you should have no problems getting full credit on the slide show and participation. The overall grade for the slide show will reflect the amount of work you put into the project.

**Timeline**: You will have at least 2 days in class to work on this project. If needed (as a group) an additional day may be granted. Please take advantage of the time given in class to make sure this presentation is done correctly.
